About Us

Dear Friend...

There's something special about a child's smile. So special, in fact, that several years ago, those very smiles changed my life when I started using my talent for woodworking to build playhouses. As I saw children's faces light up again and again, I felt an enormous sense of satisfaction knowing that I was playing a small part in helping these families make memories together. And on a much greater scale, I felt as if I had discovered what God wanted me to do with the talents and gifts He had given me.

So in 1999, I created the Little Cottage Company® to create special moments over and over for parents and children everywhere. Throughout the years, we have continued to expand our catalog to include a variety of high-quality structures and our Wildridge® Poly Furniture for adults as well as children.

Our Wildridge® Poly Furniture collections of durable, low maintenance poly furniture feature many pieces that encourage spending time outdoors with family and friends. Enjoy a breezy summer afternoon, sit around a bonfire with neighbors on a crisp fall night, listen to the sounds of crickets, or enjoy a night of star gazing with loved ones.

My hope is that a Little Cottage Company® structure or Wildridge® Poly furniture will help you enjoy many special moments with those you love, and give you the opportunity to create countless memories that will last a lifetime.

Sincerely,
Dan Schlabach
President
